Load & Start

Load & Edit

 You can create a new configuration by clicking “Create new configuration”.

 U kan een nieuwe configuratie maken door op “Create new configuration” te klikken.

Step 1 — Setup your logo

Do you want to show a logo on top of the screen?

Yes

No, continue

Continue to Background color settings

 If you want to show your logo at the top of the screen click “Yes”

 Indien u uw logo aan de bovenzijde van het scherm wenst te tonen klik op “Yes”

Step 1 — Setup your logo

Do you want to show a logo on top of the screen?

Upload logo file

No file chosen

or Logo URL

 Select the logo file you want to show, or load and external URL

 Selecteer het logo wat u wenst to tonen, of laadt een externe URL

Step 2 — Header Background Color

Do you want to set a custom header background color?

The background color is shown behind your logo.

Yes

No, continue

Back

Continue to Video Players

 If you want to change the default black background color, click “Yes”

 Als u de standaard zwarte achtergrondkleur wenst te wijzigen, klik “Yes”

Step 2 — Header Background Color

Do you want to set a custom header background color?

The background color is shown behind your logo.

Color

Continue to Video Players

 Click the thin horizontal bar and select the color you want to use.

 Klik op de dunne horizontale balk en kies de gewenste kleur.

Step 3 — Video players

How many video players would you like?

- 0 +

If you also want to add a webbrowser, we recommend no more than 2 video players

Back

Continue to upload videos

Enter the amount of videoplayers you want to show on screen

IMPORTANT: If you want to show a webbrowser as well, do not enter more than 2 players

Voer het aantal videospelers in welke u wenst te tonen op het scherm

BELANGRIJK: Als u een webbrowser wenst te tonen, stel dan niet meer dan 2 spelers in.

Step 5 — Upload videos (Player 1 of 1)

Here you can upload your videos for the current media player. In case you want to create a playlist, upload them one-by-one.

Orientation
